```
Count In: Dance begins immediately
Notes: Dance has 3 tags, a single count bridge and 2 Restarts... please don't be scared, I promise it's not as bad as it sounds
*First restart will happen 16 Counts into wall 2 (facing 9 o'clock following your walk walk shuffle) you'll add an ' \(\&\) ' count bridge before restarting. As the bridge is an ' \(\&\) ' count on the \(L\), you will do this as a ball step (\&1) stepping forward onto the \(R\) on count 1 of your restart.
*large tag happens at the end of wall 3 , you'll be facing the front
*Small tag happens at the end of wall 4, you'll be facing 3 o'clock
*Second restart into medium tag, will happen 16 counts into wall 7 (facing 3 o'clock following your walk walk shuffle) you'll do the \(\&\) count bridge as a ball step with the step being count 1 of the tag
